JOSEPH D. MERCADO

+639686282212 | josephmercado800@gmail.com | linkedin.com/in/jdm-tech | github.com/ctrl-jo

EDUCATION

Batangas State University - JPLPC Malvar Campus | Malvar, Batangas, Philippines | Bachelor of Science in Information Technology | *2024 – Present*

- **Certifications & Professional Development:** Microsoft Certified: Azure Fundamentals, GitHub Foundations, eGovPh Hackathon 2026: Competitor / Participant, Claude Code 101, freeCodeCamp: Responsive Web Design

EXPERIENCE

Technical Content Creator (Tech & AI) | *March 2026 – Present* | Independent | Tanauan City, Philippines

- Script and produce technical content documenting AI progressions, automation tutorials, and web development across TikTok.
- Distill complex technical architectures and AI workflow concepts into accessible, engaging formats for diverse digital audiences.

PROJECTS

Cloud Resume Challenge – Azure | *Azure Functions, Python, Cosmos DB, Bicep, GitHub Actions* | *Sep. 2026*

- Deployed personal resume site on Azure Blob Storage with custom domain (jdmercado.site) via Cloudflare edge proxy with HTTPS/TLS 1.2+.
- Built Python 3.12 serverless Azure Function with Azure Cosmos DB (Table API) for visitor tracking, Bicep IaC, pytest unit tests, and dual GitHub Actions CI/CD pipelines.
- Completed all 16 steps of the Cloud Resume Challenge after earning AZ-900 certification, documenting the build on Dev.to.

AyudaTrack – eGovPH Mobile App Solution Service | *React, TypeScript, Vite, Express, Firestore* | *Jul. 2026*

- Engineered an eGovPH Mobile App solution service during eGovPH Hackathon 2026, placing Top 46 out of 137 registered teams.
- Integrated official eGovPH APIs and PhilSys eVerify for automated document retrieval and verification across national aid programs (4Ps, Social Pension, AICS, fuel subsidies).
- Built an Express/Firestore backend with smart scheduling to eliminate queues, and a React/TypeScript/Vite frontend featuring real-time tracking, bilingual localization, and text-to-speech.

TECHNICAL SKILLS

- **Languages & Frameworks:** TypeScript, JavaScript, React, Next.js, Node.js, REST APIs, Tailwind CSS
- **Databases:** PostgreSQL, MySQL, Supabase
- **AI & Automation:** Google AI, Anthropic, OpenAI, OpenRouter, AI Agents, n8n
- **DevOps & Cloud:** Git, GitHub, Vercel, Docker, Microsoft Azure, Google Cloud
- **Tools & IDEs:** VS Code, Claude Code, Codex, Cursor, Google Antigravity IDE
